

# Wildflowers

## THE BULLETIN OF THE BOTANICAL SOCIETY OF W. PA.

### JUNE MEETING

The next monthly meeting will be Monday, June 13, 8:00 P.M. at Carlow College.

Our president, Tim Manka, will present the program. He is planning a double feature --

1. CREEPY CRAWLERS
2. CHANGE IN MAN'S IDEAS

### HOCKING HILLS

Wissahickon is planning a camp-out in Hocking Hills, Ohio for the week-end of June 18-19. If you want more information, call Esther Allen, 366-0786.

### MUSHROOM GUIDE

Two good reasons to get a copy of "The Audubon Society Field Guide to North American Mushrooms" --

1. It is the best, most comprehensive fungus guide published.
2. No less than 38 of the full color photographs are credited to our own member, Emily Johnson --

Non-Inky Coprinus  
Common Psathyrella  
Orange-mat Coprinus  
Walnut Mycena  
Small Chanterelle  
Oak-loving Collybia  
Cleft-foot Amanita  
Booted Amanita  
Horse Mushroom  
Deceptive Milky  
Yellow-centered Waxy Cup  
Straight-stalked Entoloma  
Firm Russula  
Hygrophorus Milky  
Peck's Milky  
Lobster Mushroom  
Aromatic Milky  
Salmon Waxy Cup  
Variegated Map  
Fragile Russula  
Gerard's Milky  
Violet-gray Bolete  
Bitter Bolete  
Spotted Bolete  
Chestnut Bolete  
Two-colored Bolete  
Yellow-footed Chanterelle  
Flat Crep  
Spring Polypore  
Yellow Fairy Cups  
Scarlet Cup  
Crustlike Cup  
Pigskin Poison Puffball  
Stinky Squid  
Stalked Puffball-in-aspic  
Jellied False Coral  
White Coral  
Crested Coral

### PLANTAGO ARISTATA

The drawing of the Bracted Plantain is from the sketchbook of our member, Arabella Wheatley.

### FIELD TRIP SCHEDULE

All field trips start at 1:30 P.M. If you need more information than is given here, call our field trip chairman, Jasper Brown, at 364-8229.

#### Saturday, June 4 - Titus Bog

We visit our own bog, where the *Arethusa* is abundant, a most unusual sight. Meet at the rest stop on U. S. 6 and Rte. 89 between Union City and Corry. Leader, Bob Morgan.

#### Saturday, June 11 - Wolfe Creek

This will be a cooperative venture with the Ohio Mushroom Society. Emily Johnson will be leading a morning walk at 10:00 A.M. and Howard McIlvried the afternoon walk at 1:30 P.M.

Leave I-79 at the Slippery Rock exit; drive toward the town on Rte. 108 for a mile or so. At the Dairy stand, turn left. Continue for a few miles to the first paved road. Turn right, passing a large dairy farm, and continue to a grassy triangle. At the grassy triangle, turn right and meet at the bridge, a few miles further. Park in the Slippery Rock College area on the right, just before the bridge.

#### Saturday, June 18 - Ernie's Esquire Inn

This was formerly the T. W. Phillips Mansion on Route 8, 6 miles south of Butler, 12 miles north of the Turnpike on the east side of the road. Our leader has found some specimens of *Stylophorum diphyllum*. This was reported some years ago in Western Pennsylvania, but not seen until now by our contemporaries. Whether it will still be in bloom is uncertain, but the plant and fruit should be present. It differs from *Celandine* by its noticeably long style. Watch for the Inn's sign at a conspicuous brick and iron gate. Park and meet at the Inn's parking area. Fred Lochner, leader.

#### Saturday, June 25 - McConnell's Mill

Enter the area from Rte. 422 about a half-mile west of U. S. 19. Meet at the large parking lot and picnic area above the mill. Virginia Craig, Leader.

#### Saturday, July 2 - North Park

Meet at the parking area along Wildwood Road, off Babcock Blvd., near the Dairy Queen Store. Hopefully, we will find some orchids. Esther Allen, Leader.

#### Saturday, July 9 - Mt. Davis

This will be a continuation of our plant survey of the area. Meet at the picnic area with a lunch. Water and restrooms as well as picnic tables are available. It is suggested that you watch for Mt. Davis signs in Meyersdale on Rte. 219. Mr. R. K. Ache, leader.
